👤 PROFILE

Dynamic and results-oriented Software Engineer with extensive experience in developing innovative software solutions across various industries. Proven expertise in leading cross-functional teams and delivering high-quality, scalable applications. Adept in a wide range of programming languages and frameworks, including Next.js, Node.js, Python and Golang. Committed to continuous learning and staying ahead of industry trends.

🧰 PROFESSIONAL EXPERIENCE

Lead Software Engineer, *EastWest Developers*

01/2025 – Present
United States

- Spearheaded the development of innovative software solutions that streamlined operations and enhanced user experiences.
- Led cross-functional teams in the design, implementation, and deployment of complex software systems.
- Delivered high-quality, maintainable code, earning trust from colleagues and stakeholders.
- Fostered a collaborative work environment, contributing to the company's growth as an industry leader.

Lead Developer, *TOTOCLUB BETTING*

11/2024 – Present
Japan

- Developed and implemented a cutting-edge betting platform, significantly improving user experience and operational efficiency.
- Utilized Go and GraphQL to architect scalable, high-performance software solutions.
- Managed cross-functional teams for the design and ongoing maintenance of mission-critical systems.

Senior Frontend Developer, *Vue School*

06/2023 – 09/2024
Japan

- Led the development of frontend applications using Vue.js and Laravel, ensuring high performance and user-friendliness.
- Collaborated with design and product teams to implement new features and optimize user interfaces.
- Established coding best practices for maintainability and consistency across projects.

Software Developer, *Microsoft*

03/2021 – 12/2023
Japan

- Developed software solutions that improved performance, scalability, and user experience.
- Collaborated with engineers, designers, and product managers to architect complex systems.

Web Developer, Rakuten

08/2018 – 02/2020

Japan

- Developed and maintained responsive web applications, ensuring seamless experiences across devices.
- Worked with cross-functional teams to translate business requirements into scalable code.

EDUCATION

Master's Degree / MSCS, Fukuoka University of Education

02/2011 – 07/2016

Fukuoka, Japan

- Completed a Master's degree with a focus on advanced software engineering principles, including algorithms, data structures, and system design.
- Engaged in various projects that enhanced my practical skills and deepened my understanding of software development methodologies.

SKILLS

Frontend

HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Vue.js

Backend

PHP, Laravel, Node.js, Python, Django, Golang, Rust, Socket

Database

MySQL, PostgreSQL, MongoDB, GraphQL, Supabase, Firebase

DevOps & Other

AWS, CI/CD, Docker, Shopify, WordPress, Framer, AI/ML, Blockchain

PROJECTS

Gamma

- Developed robust APIs for efficient data retrieval and management, collaborating closely with frontend teams.

Browcode

As a Shopify developer, I've been working on this project for a year, focusing on custom app development and UI improvements, and have helped the store generate over \$100,000 in monthly sales.

Marketbetter

- Created a SaaS platform enabling users to build customizable chatbots using Next.js and Node.js, integrated with OpenAI for advanced NLP capabilities.

Vueschool

- Maintained and enhanced the Vueschool platform, implementing new features and performance improvements.
